Product Description

STIHL BGA 50 Battery Powered Blower (BGA 86 - KIT)

The BGA 50 blower features 11 N of power, over 20% increase in blowing force over the previous model. The variable-speed trigger is easily accessible and allows for variable control in a variety of applications. Users can work from start to finish with constant power over battery discharge. Both compact and lightweight, this entry-level blower is designed for easy storage and transportation. The product set comes with the AK 20 battery and AL 101 charger in the box.

Features

- Set w/AK 20 battery and AL 101 charger
- Powerful and ergonomic battery blower for homeowners
- For efficient cleaning of small to medium-sized areas
- Consistent blowing power throughout the entire battery life
- For use in noise-sensitive areas
- Tool-free removal of the blower tube from the housing
