Product Description

STIHL FCA 140 Battery Powered Edger (Unit Only)

This professional straight-shaft edger is perfect for edging around large residential or commercial properties. Enjoy the flexibility of professional-grade battery power without sacrificing performance with the STIHL FCA 140 edger. With a straight-shaft, a variable-speed trigger, and an adjustable depth wheel, you can control the speed you'll need to cut through packed soil or create completely new edges. This weather-resistant, reliable, edger is built with high-quality components like an onboard metal air filter, brushless motor, and the same shaft and gearbox as the gas-powered counterpart. The eco-friendly and quiet FCA 140 is a great option when working in noise-sensitive environments. As a pro-grade battery product, the FCA 140 is sure to be a welcome addition to your professional fleet of STIHL products.
