Product Description

STIHL FCA 80 Battery Powered Edger

A powerful battery-powered edger in the AK Homeowner System that comes with the battery and charger

As the first battery-powered edger in the STIHL AK Homeowner System, the FCA 80 brings the same exceptional power and performance as its gas-powered counterpart, the FC 56 C-E. With a curved shaft, loop-handle design and an adjustable depth wheel, this edger helps achieve a precise cut with ease and comfort. Equipped with a brushless motor, the FCA 80 is virtually maintenance free. With two speed levels, you can optimize performance based on your needs—reduce speed for extended run times or raise it for maximum power. Homeowners will enjoy adding this powerful precision tool to their yard care lineup.

The set comes with the AK 30 battery and AL 101 charger in the box.
