Product Description

STIHL FS 361 C-EM Gasoline Brushcutter/Clearing Saw - Blade

The high-performing FS 361 C-EM brushcutter is a versatile professional tool for cutting and thinning growth in a variety of challenging settings. It features an advanced STIHL M-Tronic™ 3.0 system for maximum efficiency in changing conditions. The FS 361 C-EM is available as a brushcutter or with the AutoCut® 46-2 head, making it perfect for cutting and thinning heavy growth. This brushcutter is ideal for use in forestry, municipal, and farm and ranch jobs that require efficiency and heavy-duty power. The STIHL FS Advanced Handle Grip offers a unique operating concept with multiple ergonomic grip options to aid user comfort and achieve optimal control. The large deflector design accommodates the wider cutting swath of the AutoCut® 46-2 and a durable clutch housing rounds out the design to make the FS 361 C-EM a great all-around tool for professional use.
