Product Description

STIHL FSA 400 Battery Powered Grass Trimmer (Unit Only)

The most powerful clearing saw in the AP Battery System, the FSA 400 offers versatility with a wide range of optional cutting attachments.

The FSA 400 offers professionals a versatile option for trimming and clearing. As the most powerful clearing saw in the AP Battery System featuring power comparable to the gas-powered FS 361 C-EM, this clearing saw is built for tough jobs. Compatibility with a wide range of cutting options means pros can tackle work in a variety of applications. It is available in a long-shaft version for higher volume grass cutting. Besides being fully capable of getting the job done right, the FSA 400 is also designed for user comfort with an ergonomic control handle and anti-vibration system.
