Product Description

STIHL FSA 50 Battery Powered Grass Trimmer

The STIHL FSA 50 is a lightweight, powerful trimmer that quickly switches to an edger for a clean, polished lawn.

Meet the STIHL FSA 50, your go to tool for easy, reliable lawn care. With 10% more power than the FSA 57 and consistent performance from start to finish, it handles tough grass with ease. Switch from trimming to edging in seconds for crisp, clean lines, and adjust the shaft and mowing head for comfort and hard to reach spots. Lightweight and balanced, it is simple for anyone to use.

A soft, high-visibility bumper helps you trim neatly around trees, fences, and walls just to fold out of the way when not needed. The STIHL FSA 50 makes it simple to achieve a sharp, polished lawn.
