Product Description

STIHL FSA 57 KIT

The FSS-KM trimmer attachment is compatible with the KM 131 R and KMA 200 R STIHL KombiSystem powerheads. Thanks to the newly designed gearbox, the FSS-KM provides high torque for heavy-duty work along with a 17.7" wide cutting swath to help operators cover a lot of ground at once.

Features

- KombiTool FSS-KM with large mowing circle diameter
- For mowing large areas of difficult-to-access terrain or slopes
- Ideal for clearing along walls and fences, under hedges and along paths.
- Efficient and powerful
