Product Description

STIHL FSA 70 R Battery Powered Grass Trimmer

FSA 70 R battery brushcutter: quickly and conveniently carry out home trimming and clearing work

The FSA 70 R features the innovative Rapid Click System that allows users to quickly and easily switch out mowing heads to reduce downtime. The advanced easy spool helps users respool the trimmer head with a simple twisting action with rapid line replacement technology. This tool is ideal for working with light vegetation and maneuvering around obstacles. With long run times, powerful performance, and a 16" cutting width, this trimmer gives homeowners an excellent option for trimming jobs with medium to high grass. Additionally, the ergonomic design and toolless adjustable loop handle are built for optimal operator comfort.

In addition to the powerful battery trimmer, you will also receive a STIHL AK 20 lithium-ion battery and the STIHL AL 101 standard charger in the set and be in a position to start work immediately.

The STIHL FSA 70 R comes as standard with the STIHL AutoCut C 12-2 line mowing head, which can be replaced without tools. For mowing work, we recommend using round mowing line. Also available as an optional accessory is the STIHL PolyCut 12-2 mowing head with plastic blades, which can be changed without tools.
