Product Description

STIHL HSA 100 Battery Powered Hedge Trimmer (HSA100)

The HSA 100 features exceptional cutting quality thanks to double-sided blades and the ergonomic handle. The rotating handle provides a well-balanced grip while allowing you to easily change cutting direction. The HSA 100 features a blade tip guard and blade guard to help you work confidently and safely. Ideal for hedge cutting in noise-sensitive areas, the battery-powered brushless motor provides you with high torque in a lightweight package. This tool is IPX4-rated for weather-resistant construction and has been designed and tested for splash-water protection.

Features

- Tool only without battery and charger
- Efficient battery hedge trimmer for professional applications
- Excellent cutting performance and constant stroke rate even under strain
- Double-sided blades for precise cuts
- Screw-on cut protection and tip protector for added safety
- STIHL anti-vibration system provides comfort even on long working days
