Product Description

STIHL KMA 120 R Battery KombiSystem (KMA120R)

The versatile KMA 120 R is built for professional, extended use and is powered by AP System batteries. Featuring a virtually maintenance-free brushless motor and variable-speed trigger to optimize energy usage, the KombiMotor offers efficiency and durability. Choose from up to 14 optional, toolless attachments that are compatible with both gas- and battery-powered KombiMotors to perform a wide range of landscaping tasks.*
*Not for use with the FSB-KM Curved-Shaft Trimmer This tool is IPX4-rated weather-resistant construction and has been designed and tested for splash water protection.

Features

- Powerful battery KombiEngine with high torque
- Set w/AP 300 S battery and AL 301 charger
- Low weight and easy to handle
- Two power levels for energy-efficient and low-noise work
- For use in noise-sensitive areas
- Can be combined with all KombiTools (except FSB-KM)
