Product Description

STIHL MS 194 T - 14"

This compact arborist chainsaw is intended for professional in-tree services only and comes at an affordable price.

With its exceptional power-to-weight ratio, the MS 194 T packs professional-grade performance into a compact and lightweight body. Its efficient, low exhaust emission engine delivers excellent fuel economy. One-touch stop allows you to turn off the engine with the press of a button, which saves time and reduces the chance of flooding when restarting. Dependable and hardworking, the MS 194 T also includes a diagnostic port, making it easy to access data and service the product.
