Product Description

STIHL MSA 200 C-B Battery Powered Chainsaw (Unit Only) - 14"

This battery-powered chainsaw is great for cutting firewood, storm cleanup, around-the-home tasks, and carpentry projects.

No pulling on cords, fuel mixing, or complicated startup procedures with the MSA 200 C-B chainsaw. Just squeeze the trigger and start cutting. In addition to easy starting, battery-powered tools in the STIHL AP System produce zero exhaust emissions and are quieter than their gas-powered counterparts, making them an ideal choice for areas with emission or noise restrictions. Powered by an interchangeable STIHL lithium-ion battery, this chainsaw delivers the speed, cutting capacity, and run time to take on just about any cutting job. The STIHL MSA 200 C-B is a battery-powered chainsaw tough enough to carry the name STIHL.

Run time may vary based on battery type, charge level and capacity, model, operating style, and conditions. Batteries and chargers can be purchased separately or as a combined set with tool.

This tool is IPX4-rated weather-resistant construction and has been designed and tested for splash water protection.
