Product Description

STIHL MSA 220 TC-O Battery Powered Chainsaw (MSA220T)

The STIHL MSA 220 TC-O is the most powerful top-handle chainsaw in the STIHL battery-powered lineup, boasting power and performance similar to professional gas top-handle chainsaws. By utilizing the same 3/8" STIHL PICCO chain and 12" ROLLOMATIC E and E Light guide bars as its gas-powered counterparts, the MSA 220 TC-O helps pros seamlessly make the switch from gas to battery power. With a high chain speed and durable parts such as a magnesium motor housing and a brushless motor, in-tree professionals can count on this saw to hold up to a heavy workload. An LED display screen provides quick

Features

- Powerful professional cordless tree maintenance saw for noise-sensitive areas
- Tool only without battery and charger
- For tree service professionals only
- Intuitive operation thanks to electronic operating system
- Quick status overview thanks to cockpit with 180° display
- Oil supply monitoring thanks to oil sensor

Specifications
