Product Description

STIHL REA 100 PLUS Battery Powered Pressure Washer (REA100 PLUS)

The REA 100 PLUS is a powerful, professional pressure washer featuring stepless pressure control so users can easily dial the pressure up or down to meet the needs of the job at hand. Operating on only one AP battery at a maximum pressure of 2,200 psi, this pressure washer is a true powerhouse in the market with the ability to continuously spray at 1800 psi. The lightweight and durable engineering, along with 3-in-1 nozzle and built-in detergent hose, offer convenience for portability and maneuverability as well as clean, mess-free storage. With weather-resistant durability including a battery

Features

- Tool only without battery and charger
- Work without power or water connection
- For cleaning jobs around the home and garden
- High flexibility due to particularly compact, lightweight and portable design
- 3-in-1 nozzle with rotary, fan jet and cleaning agent spray patterns
- Integrated hose reel for convenient storage of the high-pressure hose
