Product Description

STIHL SGA 60 Battery Backpack Sprayer

Built for tough jobs and long days, this battery-powered sprayer is ready to work as hard as you do.

The STIHL SGA 60 is a battery-powered backpack sprayer built for users who expect durability, comfort, and performance. With up to 270 minutes of run time on a single AK 10 battery, it can spray up to 100 gallons, making it ideal for large properties or extended landscaping work.

It delivers up to 65 psi for even reliable applications from the first trigger pull to the last drop. The ergonomic harness system includes padded shoulder straps, a cushioned waist belt, and back support to help reduce fatigue and keep you moving comfortably through long hours in the field.

Five nozzles are included to let you adapt to any task, from precision misting to wide area coverage. The sprayer is also compatible with STIHL's full nozzle lineup using an adapter. Designed for real world conditions, it features IPX4 water resistance, a transparent 4-gallon tank with level markings, a wide-mouth opening with integrated strainer, and a wand holder for secure transport.

Whether you're applying herbicides, fertilizers, or pest control solutions, the SGA 60 is built to handle the job with confidence and control.
